

*A Driving Force on the Railway Track*

# THE COMPANY

Rail GD Inc. is a leader in overhaul and repair of passenger trains, locomotives and freight wagons. We offer the most comprehensive and cost-effective maintenance and repair services in the transportation industry. Our services include designing, engineering, electrical engineering, integration services and turnkey projects. Our experts, including mechanical engineers, would gladly provide you with advice on your structures!

Drawing from our 5 years of railway experience in top quality remanufacturing and refurbishing, we are driven by our commitment to embrace technical innovation. Our focus is on efficiency and our investment in the expertise of our team of professionals. We are committed to continuous improvement, and a significant portion of our payroll is invested in training our experts.

Performance, innovation and reliability have been key to our accomplishments. Our clients across North America testify to our success, along with the dedication and the talent of our team.

We are a young and dynamic company and have earned the trust of major brands. We thrive on exceeding our clients' expectations. The wealth of experience of our professionals in remanufacturing and refurbishing, and the multi-disciplinary skills set of our talented experts is the strength behind our company.

If you are looking for top quality, superior products and services, along with a team of talented professionals, Rail GD Inc. is the partner for you!

## THE MISSION

We provide **maintenance and repair** services to the **rail transportation** industry through our **state-of-the-art facility**, our **qualified professionals** and through **efficient processes** focused on **productivity**.

## OUR VALUES :

- Commitment;
- Precision and Quality;
